SUMMARY

Computer Science student skilled in Flutter, Firebase, and mobile application development, with experience in AI-integrated systems and a strong foundation in Data Structures and Algorithms.

EDUCATION

Sri Ramakrishna Engineering College

B.E in Computer Science and Engineering | GPA: 8.11/10

Coimbatore, TN

Aug. 2023 – April 2027

S.L.B Government Higher Secondary School

Higher Secondary (12th) | Percentage: 89% | Computer Science: 100/100

Nagercoil, TN

June 2022 – April 2023

EXPERIENCE

Flutter Mobile Application Intern

December 2025

Vision Corp Infotech

Coimbatore, TN

- Built and improved UI screens across multiple Flutter app modules, contributing to workflow optimization.
- Debugged and resolved rendering issues in production Flutter screens, improving app stability.
- Participated in code reviews and followed standard mobile app development practices including testing and version control.

Database Intern

June 2025

ABT Limited

Coimbatore, TN

- Assisted in developing a web-based application with MongoDB integration for data storage and retrieval.
- Designed and structured database collections to support efficient querying within an enterprise environment.

PROJECTS

AmpTrail | *Flutter, Firebase, Firestore* | github.com/AbdulFahad31/amptrail

- Developed a real-time EV charging slot booking application in Flutter with role-based access control for users, station owners, and administrators.
- Implemented Firestore real-time listeners to synchronize slot availability across concurrent users and reduce booking conflicts.
- **Received Government of India Copyright Registration (2025)** for this product.

ForensiAI | *CrewAI, FastAPI, React, LLMs* | github.com/AbdulFahad31/forensiai

- Built an AI-powered forensic investigation platform using multi-agent CrewAI workflows for intelligent evidence analysis and automated report generation.
- Integrated LLM-based anomaly detection to assist investigators in case analysis and reduce manual review effort.
- **Secured 1st Prize** at the 24-Hour HackHere Hackathon (StartupTN Affiliation).

Medovate | *Flutter, Firebase, Firestore* | github.com/AbdulFahad31/medovate

- Built a cross-platform doctor appointment booking application with real-time scheduling and availability management.
- Integrated Firebase Cloud Messaging for automated appointment reminders and patient notifications.

TECHNICAL SKILLS

Languages: Java, Dart, Python, C, HTML, CSS

Frameworks: Flutter, FastAPI, React

Databases: Firestore, MongoDB, Supabase

Tools: Git, Android Studio, VS Code, Figma, CrewAI, Firebase

Concepts: Data Structures & Algorithms, OOP, DBMS, REST APIs, Agile/Scrum

ACHIEVEMENTS

- Secured **1st Prize** at the 24-Hour HackHere Hackathon (StartupTN Affiliation) for developing ForensiAI.
- Received **Government of India copyright registration** for AmpTrail.
- Solved **750+ coding problems** across LeetCode, SkillRack, CodeChef, and GeeksforGeeks.
