Executive Summary

Computer Science student skilled in Flutter, Firebase, Java, and mobile application development with strong knowledge of Data Structures and Algorithms.

Internships

Flutter Mobile Application Intern

Vision Corp Infotech

Coimbatore, TN

December 2025

- Contributed to UI development and workflow optimization in Flutter applications.
- Gained practical exposure to debugging, testing, and standard mobile app development practices.

Database Intern

ABT Limited

Coimbatore, TN

June 2025

- Assisted in developing a web-based application with MongoDB integration for data storage and retrieval.
- Learned how databases are integrated into web systems within an enterprise environment.

Projects

AmpTrail – EV Charging Slot Booking Application

github.com/AbdulFahad31/repo 🔗

- Developed a real-time EV charging slot booking application using Flutter and Firebase with secure authentication and role-based access control.
- Improved booking efficiency and reduced slot conflicts through real-time synchronization and availability tracking. **Tech Stack:** Flutter, Firebase, Firestore.

Medovate – Doctor Appointment Booking Application

github.com/AbdulFahad31/repo 🔗

- Built a doctor appointment booking system with dynamic scheduling and real-time availability management.
- Enhanced appointment management by integrating automated notifications using Firebase Cloud Messaging. **Tech Stack:** Flutter, Firebase, Firestore.

ForensiAI – AI Powered Forensic Analysis Tool

github.com/AbdulFahad31/repo 🔗

- Developed an AI-powered forensic investigation platform for intelligent evidence analysis and automated forensic reporting.
- Improved investigation efficiency using multi-agent AI workflows for anomaly detection and AI-assisted case analysis. **Tech Stack:** CrewAI, FastAPI, React, LLMs.

Technologies

Languages: Java, Dart, C, Python, HTML, CSS

Frameworks/Libraries: Flutter, Firebase, MongoDB, Supabase

Tools: Git, GitHub, Android Studio, VS Code, CrewAI, AI Tools, Figma

Databases: Firestore, Supabase, MongoDB

Core Concepts: Data Structures, OOP, DBMS, OS, REST APIs, Agile/Scrum

Education

Sri Ramakrishna Engineering College

B.E in Computer Science and Engineering

Aug 2023 – April 2027

- GPA: 8.11/10

Achievements

- Secured 1st Prize at the 24-Hour HackHere Hackathon (StartupTN Affiliation) for developing “ForensiAI”.
- Received Government of India copyright registration for “AmpTrail”.
- Solved 750+ coding problems across LeetCode, SkillRack, CodeChef, and GeeksforGeeks.
